

Dear FCCI Member:

As an FCCI member whose payroll services are provided by Infinisource Inc., you can take advantage of an exclusive opportunity designed with the busy employer in mind.

What is it? It is a newly created automated service that will generate your quarterly self audit reports for you. Plus, we not only generate them but Infinisource Inc. will electronically send the required information to Sarasota for processing by FCCI so that FCCI can more accurately calculate your workers' compensation premium.

All of the information pertaining to your employees that is required by the state of Florida is included:

- Number of employees
- Number of weeks worked
- Workers' compensation codes per employee
- Payroll inclusions and exclusions reconciled to FLUCT-6 Individual Wage Listings
- Allowable overtime, tips, and executive officer limitations

To make this program even more efficient, Infinisource Inc. will be sending FCCI the information each pay period. Therefore, each monthly premium bill will reflect your actual payroll.

No forms to complete each quarter! No tedious tabulations to make! No papers to mail in! Infinisource Inc. and FCCI electronically take care of all the paperwork for you!

This service gives FCCI accurate premium billing updates and gives you more time in your already busy work day. If you desire to participate in this project, please sign this form on the line provided below. We will notify you when we are on line with Infinisource Inc.

Yes, I would like to take advantage of this service. I hereby agree that Infinisource Inc. is authorized to release payroll information as stated herein to FCCI Mutual Insurance Company for premium calculation purposes.
